**Rail Revolution 4.0:
Picking up Speed after the Crisis**

VDB DIALOG FORUM DIGITAL
24 SEPTEMBER 2020
11 am - 1 pm

Dear Sir or Madam

The German Railway Industry Association (VDB) cordially invites you to our virtual VDB DIALOG FORUM DIGITAL as part of the InnoTrans Preview 2020.

Climate protection needs clean mobility. And the world economy needs a green re-start. Rail 4.0 now interlocks previous antagonists: climate protection and growth. The railway industry in Germany provides new mobility: digital, fascinating, efficient. In European and global partnerships, we are jointly realising The Future Of Mobility.

How can the mobility revolution 4.0 be put into action together? Top representatives from politics and industry discuss the Clean Mobility of tomorrow at the VDB DIALOG FORUM DIGITAL.

We are looking forward to your participation.
